

## .ASIA APPENDIX to RAA

(15 December 2006)

### .ASIA APPENDIX

ICANN and [Registrar] have entered into a Registrar Accreditation Agreement ("RAA"), of which this .ASIA Appendix ("Appendix") is a part. Pursuant to and subject to the RAA, Registrar and ICANN hereby agree as follows:

1. Registrar Election. Registrar hereby elects and agrees to become accredited by ICANN to provide Registrar Services in the .ASIA TLD.
2. ICANN's Acceptance. ICANN hereby accepts Registrar's election to become accredited by ICANN to provide Registrar Services in the .ASIA TLD.
3. Need for Agreement with Registry. Registrar's obligation under RAA Subsection 3.1 to operate as a registrar for the .ASIA TLD is conditioned upon the .ASIA Registry selecting Registrar as one authorized to act as a .ASIA registrar, and upon Registrar and the .ASIA Registry having an Authorizing Agreement in effect.
4. Sponsored TLD Delegated Authority. Registrar acknowledges that the .ASIA TLD is a sponsored TLD, over which the .ASIA Registry has been delegated policy-formulation authority under its Sponsored TLD Registry Agreement with ICANN. The scope of delegation is currently stated in Appendix S to the .ASIA agreement, available on the ICANN website, and includes topics that will affect the manner in which Registrar conducts its business of registering domain names in the .ASIA TLD. Registrar agrees to comply with the requirements established by the .ASIA Registry within its delegated scope of policy-formulation authority.
5. Deviations from Obligations of this Agreement Due to Delegation. The .ASIA Registry may develop and implement a policy within the scope of its authority granted by its Sponsored TLD Registry Agreement with ICANN that requires Registrar to deviate from one or more obligations of this RAA. In that event, the .ASIA Registry will notify ICANN in writing of the policy and the manner in which the .ASIA Registry believes that Registrar's obligation(s) under this RAA should be modified. Within thirty days after this notification, ICANN will either:

(a) notify Registrar and the .ASIA Registry in writing of the modification(s) to Registrar's obligations under this RAA that in ICANN's opinion is (are) appropriate to allow Registrar to comply with the .ASIA Registry's policy. In case of this notification by ICANN, Registrar may act in conformity with the modified obligation(s) stated in the ICANN notification.

(b) notify Registrar and the .ASIA Registry in writing that in ICANN's opinion no modification of Registrar's obligations is appropriate. In case of this notification by ICANN, Registrar will continue to comply with its obligations under the RAA without any modification until it is notified in writing by ICANN that a resolution of any difference between the opinions of ICANN and the .ASIA Registry is resolved.

IN WITNESS WHEREOF, the parties hereto have caused this .ASIA Appendix to be executed by their duly authorized representatives.
